[(A) READING -10 MARKS]

A. 1 Read the given story and do as directed.

There was a boy called Badal. He lived with his mother in a village, and they were very happy. One evening, when Badal was returning from school, he saw a puppy shivering in the cold. Badal brought the puppy home and asked his mother, "Can this puppy stay with us, Maa?" His mother agreed, but only if Badal promised to take care of the puppy. They named the puppy Moti. As days went by, Moti grew up and loved Badal. They became best friends, eating and playing together. Moti followed Badal wherever he went, and they played their favourite games together.

A.1.1 Answer the following questions. (1×2=2)

(a) What was the name of the boy in the story?

(b) Where did Badal live?

A.1.2 Fill in the Blanks. (1×2=2)

(1) Badal found a _____ shivering in the cold.

(2) The puppy was named _____.

A.1.3 The opposite of "Hot" is _____. (1)

A.2 Read the give passage and answer the following questions.

Butterflies are small, flying insects known for their colourful wings. There are different types of butterflies, such as monarch butterflies, swallowtail butterflies and painted lady butterflies. Butterflies go through a process called metamorphosis, which is a change in their body structure. When they are born, they are small, crawling creatures called caterpillars. As they grow, they spin a cocoon around themselves and transform into a butterfly. Butterflies are important to the

environment because they help pollinate flowers and plants. They drink nectar from flowers and spread pollen as they fly from one flower to another.

A 2.1 Answer the following Questions.
